

Hydraulic Proppant Fracturing And Gravel Packing

Hydraulic Proppant Fracturing And Gravel

Many aspects of hydraulic proppant fracturing have changed since its innovation in 1947. The main significance of this book is its combination of technical and economical aspects to provide an integrated overview of the various applications of proppants in hydraulic fracturing, and gravel in sand control.

Hydraulic Proppant Fracturing and Gravel Packing - D ...

A proppant is a solid material, typically sand, treated sand or man-made ceramic materials, designed to keep an induced hydraulic fracture open, during or following a fracturing treatment. It is added to a fracking fluid which may vary in composition depending on the type of fracturing used, and can be gel, foam or slickwater-based.

Hydraulic Fracturing Market Analysis, Industry Report, 2024 Hydraulic Fracturing Market Analysis By Technology (Plug & Perf, Sliding Sleeve), Material (Proppant (Sand, Ceramic, Resin Coated Sand)), Application (Shale Gas, Tight Gas, Tight Oil, Coal Bed Methane (CBM)) And Segment Forecasts To 2024

Hydraulic Fracturing Market Analysis | Industry Report, 2024

Abstract. 1. Proppant Selection. Introduction. Historical development of hydraulic proppant fracturing. Proppant types and grain sizes. Proppant selection for hydraulic fracturing and gravel packing. Proppant applications. Conclusion and outlook. 2. Marketing and Economics. Introduction. Economical influences on hydraulic proppant fracturing.

Hydraulic proppant fracturing and gravel packing (Book ...

Recommended Practice for Measurement of ... This document provides standard testing procedures for evaluating proppants used in hydraulic fracturing and gravel-packing operations. ... The objective of this document is to provide a consistent methodology for testing performed on hydraulic fracturing and/or gravel-packing proppants.

Recommended Practice for Measurement of and Specifications ...

Proppants in this document are sand, ceramic media, resin-coated proppants, gravel-packing media, and other similarly used materials for hydraulic fracturing and gravel-packing operations. 1 ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959, www.astm.org
