The Problem Few other subjects in school take the trouble to help students learn how to generate original ideas, designs, and composition. In art class, even though the ability to generate ideas is central to the process of art and central to the success of artists, many art teachers do not realize that idea generation can be intentionally taught.

Teaching Idea Generation in Art

omegajunior said... You say that the 30 bucks Apple charges for these chargers will be profit, mainly. Perhaps that is the case. Seeing how much thought went into these things, knowing a recall and a redesign happened, reading how the design goes above and beyond safety regulations, I dare assume Apple spent a lot of time on research, prototyping, and testing.

I don't know about you, but when fall hits, all I want are pumpkin spice drinks to warm up with, hot stew in the crock pot waiting for me when I get out of work, and the smell of baked apple treats in the air as often as possible. And while classic fall favorites, like apple pie and apple crisp, are delicious, I always get excited by the prospect of a new apple treat I've never tried before.
