drinking. The Aerus family of whole home filtration, conditioning and RO solutions brings you the best in water purification, making it easier to stay properly hydrated and ensuring that the water in your home is superior in every way.

Hydrate with Pure, Clean Water | Aerus

Reverse osmosis (RO) is a water purification process that uses a partially permeable membrane to remove ions, unwanted molecules and larger particles from drinking water. In reverse osmosis, an applied pressure is used to overcome osmotic pressure, a colligative property, that is driven by chemical potential differences of the solvent, a thermodynamic parameter.

Reverse osmosis - Wikipedia
